Career Objective

Results-driven WordPress Developer with **4+ years** of experience in custom theme development, plugin development and integration, WooCommerce, and responsive web design. Experienced in building SEO-optimized, high-performance websites with a strong focus on user experience, scalability, and functionality. Skilled in developing custom booking systems, dynamic pricing logic, and integrating Google Maps APIs. Also familiar with Shopify and Zoho Commerce for e-commerce development and platform integrations. Proficient in leveraging AI tools such as ChatGPT, Claude, GitHub Copilot, and Cursor to streamline development workflows, improve productivity, and deliver production-ready solutions efficiently. Successfully delivered 30+ client websites. Skilled in REST API integrations, workflow automation, and data-driven problem-solving.

Professional Experience

T-WEB Exponent Services Pvt. Ltd. (Sr. Associate Software Engineer) *Sept 2022 – Present*

- Developed and maintained high-performance WordPress websites and custom themes using PHP, HTML, CSS, JavaScript, and MySQL.
- Built and customized Shopify stores, including theme customization, product and collection setup, app integration, and checkout/payment configuration.
- Leveraged AI tools to rapidly develop websites, significantly reducing build time for landing pages and full websites while maintaining code quality and SEO standards.
- Optimized website speed, SEO, and database queries, improving site performance and user experience across multiple projects.
- Delivered 30+ responsive, secure, client-focused WordPress and e-commerce solutions, ensuring scalability and long-term maintainability.
- Integrated third-party platforms via REST APIs and Webhooks to automate business workflows.
- Collaborated directly with clients to gather requirements, provide technical solutions, and deliver projects on schedule.

Ardent Computech Pvt. Ltd. (Intern – Web & Data Analytics) *Mar 2022 – Jun 2022*

- Worked on Stock Market Prediction using Python for data preprocessing, model training, and visualization.

Flipkart Launchpad (Intern – Operations & Process) *Sept 2021 – Oct 2021*

- Analyzed warehouse workflows to streamline logistics and reduce bottlenecks.

Core Skills

Key Projects

Chauffeur Booking Platform *WordPress*

- Developed a premium bilingual (English/French) WordPress chauffeur booking platform using CHBS, WPML, ACF Pro, and Elementor Pro, featuring custom hybrid pricing logic, Google Maps Distance Matrix API integration, VAT calculations, multi-step booking form customization, vehicle availability management, SEO-optimized airport transfer pages, and LocalBusiness structured data.

E-Learning Platform *WordPress*

- Developed storytelling sliders, embedded quizzes, gamified reward systems, and role-based parent/child dashboards.

Zoho Inventory Integration with WordPress *REST API · Webhooks*

- Integrated Zoho Inventory with WordPress using REST APIs and Webhooks for real-time lead management.
- Implemented two-way sync of items, orders, and invoices between Zoho Inventory and WordPress.

Shopify E-commerce Stores *Shopify · Liquid*

- Implemented two-way sync of items, orders, and invoices between Zoho Inventory and WordPress.
- Built and launched Shopify stores with custom theme modifications, product catalog setup, payment gateway integration, and SEO optimization.

AI-Assisted Rapid Website Development *AI Tools*

- Delivered complete business websites in a short turnaround by combining AI code generation, AI-written content, and manual customization.
